Seeing your doctor? Reach for your online account.

Log in and take action to stress less and save more.

1

Get the right medication.

If your doctor gives you a prescription, you can immediately check pricing—a less costly option may be available that's just as effective to request.

2

Get the right days' supply.

When your doctor gives you a prescription, ask if it's available in a larger 3-month quantity—or go online to increase the quantity for a current prescription.

3

Get the right pharmacy.

Know which pharmacies are in your network, then request any prescriptions be sent there to be filled.
